

# Welcome!

Eric Toskey  
UPM Forum Administrator

**21 – 22 February 2018 Houston, TX**

# What is the UPM Forum?

- For all production data stakeholders
  - E&P engineers, regulators, academia, researchers, and service and product suppliers
- Impactful, educational
- Interactional, through inquiry, discussion, and debate
- Collaborative, exploring together how to advance the value and utility of production measurement

# The UPM Forum 2018

- Seven sessions of presentations:
  - Measurement Enhancement: liquid and gas measurement
  - API Update: well testing and allocation
  - Flow Models: enhancing the value of measurement through modeling
  - New Measurements in Upstream Production
  - Downhole Measurement: near reservoir measurement applications
  - Multiphase Measurement: land and offshore applications
  - Open Forum Discussion

# The Format
